

Massage Insurance Benefits Payment Policy

Thank you for selecting our massage therapy services. At our massage facility, we strive to deliver exceptional care. As a valued customer, we want to ensure that you have a comprehensive understanding of our payment policy concerning massage insurance benefits. Please take the time to review this information carefully and feel free to ask any questions you may have.

Insurance Participation - We are affiliated with various insurance companies and accept their insurance plans. Any charges incurred due to your insurance coverage are your responsibility. It is imperative that you **inform us promptly of any changes** in your insurance plan. If your insurance benefits change and as a result, an insurance claim is denied, you will be responsible for the associated expenses.

Co-payments, Coinsurance, and Deductibles - Copayments must be settled at the time of service. This arrangement is an integral part of your contractual agreement with your insurance company. The amounts for coinsurance and deductibles may vary depending on your specific insurance plan.

Insurance Claim Submission and Processing Fees - We have partnered with an external insurance billing company to handle the submission of your insurance claims and provide assistance in facilitating insurance claim processing. For each submission of a massage insurance claim to your insurance company, we charge a **processing fee of \$30. The processing fee of \$30 must be settled at the time of service.**

Our massage practice is dedicated to providing outstanding massage therapy treatments to our customers. The fees we charge reflect the customary and prevailing rates for our area. We appreciate your understanding and cooperation with our payment policy.
